Skills

- **Offensive Security:** Kali Linux, Burp Suite, OWASP ZAP, Nmap, Wireshark, Metasploit
- **Defensive Security:** Wazuh (SIEM), Snort (IDS/IPS), System Hardening, OWASP
- **Systems & Networking:** Linux (Ubuntu, Arch, Debian), Docker, Nginx, TCP/IP, DNS
- **Programming & Scripting:** Bash, Python, PHP, Java, SQL, JavaScript, HTML5, CSS3
- **Tools & Auditing:** Git, Postman, Cryptography, Vulnerability Assessment
- **Languages:** Spanish (native), Valencian (proficient), English (intermediate)

Projects

SIEM & Detection Lab | Wazuh, Snort, Linux, Syslog, Bash

Defensive Security Project

- Deployment of Wazuh SIEM and Snort IDS/IPS for real-time security monitoring.
- Attack simulation (Nmap scans, brute-force, DoS) to calibrate detection alerts.
- Automation of active responses for dynamic IP blocking and security logging.

Web Security & Ethical Pentesting | Burp Suite, OWASP ZAP, Kali Linux, Nmap

Offensive Security Project

- Penetration testing on web environments adhering to OWASP Top 10 methodology.
- Identification and exploitation of critical flaws: SQLi, XSS, and access controls.
- Delivery of technical vulnerability reports with practical remediation plans.

EcoNane (AppSec & Secure Web) | Vue.js, Supabase, Cloudflare, Resend

Production AppSec Project

- IDOR mitigation on ephemeral links using 4-digit patient phone PIN validation.
- Strict form input sanitization and active protection against XSS and spam.

Experience

Sollutia

Web Developer

- Responsive layout and UI design using HTML5, CSS3, and Bootstrap
- Web application development in an internship environment with Git version control
- Secure PHP and MySQL backend implementation with Prepared Statements against SQLi
- Strict input validation and sanitization on frontend forms using JavaScript
- Technical collaboration on code reviews and software security best practices

Alcoy, Alicante (hybrid)

March 2025 – June 2025

Coratge

Web Developer

- Comprehensive WordPress CMS hardening: permission audit and access restriction
- Deployment of active defensive measures against brute-force attacks and spam
- Hosting security administration on Webempresa: firewall (WAF) and SSL/TLS setup
- File integrity monitoring and implementation of baseline security practices
- Setup of automated backups and quick operational disaster recovery plans

Alcoy, Alicante (remote)

March 2023 – June 2023

Education

CIP FP Batoi

Specialization Course in Cybersecurity

Alcoy, Alicante

June 2026

CIP FP Batoi

Higher Degree in Web Application Development

Alcoy, Alicante

June 2025

CIP FP Batoi

Intermediate Degree in Microcomputer Systems and Networks

Alcoy, Alicante

June 2023
